

Intellicold® Pharmacy Fridges

RLDF0119DIGILOCK Pharmacy & Vaccine Refrigerator

Part Number	RLDF0119DIGILOCK
Capacity (Litres)	36
Style	Bench Top
Exterior Dimensions (HxWxD)	540 x 450 x 510mm
Interior Dimensions (HxWxD)	392 x 331 x 226mm
Operating Temperature	+5°C
Temperature Range	+2°C to +8°C
Power Consumption Kwh/24hrs	1.28
Interior Construction	Moulded Plastic
Exterior Construction	Powder Coated Steel
Brackets for Wall Mounting	✓
Shelves	2
Net Weight (kg)	30
Door Style	Solid
Door Hinging	Right (can be reversed at time of manufacture)
Self Closing Door	✓
Digital Door Lock	✓
Digital Temperature Display	✓
Internal Light	✓
High/Low Temperature Alarm	✓
Minimum/Maximum Temperature Recording	✓
Automatic Temperature & Fridge Function Data Recording	✓
Door Open Alarm	✓
Mains Failure Alarm	✓
Alarm Battery Back-Up	✓
Second Temperature Probe	✓
Off Cycle Auto Defrost	✓
Fan Assisted Cooling	✓
Remote Alarm Contacts	✓
Access Port	✓
DH Green Book Guidelines Compliant	✓

Fitted with a digital lock to solve the issue of lost keys and generic fridge locks and powered by the NEW IntelliCold® touch screen controller, this pharmacy refrigerator is packed with extra functions designed to store temperature sensitive pharmaceuticals in optimum conditions including a 1 metre secondary (wandering) temperature probe and automatic fridge function and temperature data recording.

The touch screen, which is completely flat so can be thoroughly cleaned and disinfected, displays, alarms and records minimum and maximum temperatures for both temperature probes. Like a mobile phone touch screen, the screen locks after 30 seconds to ensure that buttons can't be activated accidentally.

There is a master key (optional extra) you can purchase so you can access the contents if the code is forgotten or there is an electrical failure and batteries aren't fitted to the fridge. For a small additional cost we can also provide a manufacturers' calibration certificate from our UKAS temperature calibration laboratory No:8898.

We are confident that this pharmacy refrigerator will provide you with many years of fault free service. However, for extra peace of mind your RLDF0119DIGILOCK comes complete with a FREE UK 5 year parts and labour warranty.

While you're registering your warranty, why not purchase a micro SD card for transferring all the data recorded by the controller from the fridge to your computer? The IntelliCold® controller automatically records fridge function and temperature data for both probes at minute intervals plus all alarm states. This data can only be transferred to a computer via a specially encoded micro SD card. This data not only helps you with record keeping and breeze through regulatory inspections it is also useful if you have an issue to establish the exact duration and severity of any event.

RLDF0119 Pharmacy & Vaccine Refrigerator

Powered by the NEW IntelliCold® touch screen controller, this pharmacy refrigerator is packed with extra functions designed to store temperature sensitive pharmaceuticals in optimum conditions. It also features a 1 metre secondary (wandering) temperature probe that can be placed anywhere inside the fridge.

The touch screen controller is completely flat so can be thoroughly cleaned and disinfected as there are no raised buttons to collect dirt and germs. The controller displays, alarms and records minimum and maximum temperatures for both temperature probes. Like a mobile phone touch screen it locks after 30 seconds to ensure that buttons can't be activated accidentally.

For extra security, there is a digital lock version RLDF0119DIGLOCK which solves the problem of generic keys, but whatever the preferred model, for a small additional cost we can provide a manufacturers' calibration certificate from our in house UKAS temperature calibration laboratory No:8898.

We are confident that this pharmacy refrigerator will provide you with many years of fault free service. However, for extra peace of mind your RLDF0119 comes complete with a FREE UK 5 year parts and labour warranty.

While you're registering your warranty, why not purchase a micro SD card and adapter for transferring data recorded by the controller from the fridge to your computer at half price?

The IntelliCold® controller records alarm states, fridge operation, door openings and temperature data for both probes at minute intervals. You can only view and store this data on a computer by purchasing a specially encoded micro SD card from Labcold. This data helps you with record keeping and regulatory inspections, plus if you have an issue, you can establish the exact duration and severity of the event.

For a small additional cost we can also provide a manufacturers' calibration certificate from our in house UKAS temperature calibration laboratory No:8898.

We are confident that this pharmacy refrigerator will provide you with many years of fault free service. However, for extra peace of mind your RLDG0519DIGLOCK comes complete with a FREE UK 5 year parts and labour warranty.

While you're registering your warranty, why not purchase a micro SD card and adapter for transferring data recorded by the controller from the fridge to your computer at half price?

The IntelliCold® controller records alarm states, fridge operation, door openings and temperature data for both probes at minute intervals. You can only view and store this data on a computer by purchasing a specially encoded micro SD card from Labcold. This data helps you with record keeping and regulatory inspections, plus if you have an issue, you can establish the exact duration and severity of the event.

RLDF1019 Pharmacy & Vaccine Refrigerator

Part Number	RLDF1019
Capacity (Litres)	340
Style	Free Standing
Exterior Dimensions (HxWxD)	1510 x 600 x 700mm
Interior Dimensions (HxWxD)	1358 x 480 x 500mm
Temperature Range	+2°C to +8°C
Operating Temperature	+5°C
Power Consumption Kwh/24hrs	1.52
Interior Construction	Powder Coated Steel
Exterior Construction	Powder Coated Steel
Shelves	6
Net Weight (kg)	79
Internal Drawers Available	✓

Minimum/Maximum Temperature Recording	✓
Automatic Temperature & Fridge Operation Data Recording	✓
Door Open Alarm	✓
Mains Failure Alarm	✓
Alarm Battery Back-Up	✓
Second Temperature Probe	✓
Off Cycle Auto Defrost	✓
Fan Assisted Cooling	✓
Remote Alarm Contacts	✓
Access Port	✓
DH Green Book Guidelines Compliant	✓

Powered by the NEW IntelliCold® touch screen controller, this pharmacy refrigerator is packed with extra functions designed to store temperature sensitive pharmaceuticals in optimum conditions. It also features a 1.6 metre secondary (wandering) temperature probe that can be placed anywhere inside the fridge.

The touch screen controller is completely flat so can be thoroughly cleaned and disinfected as there are no raised buttons to collect dirt and germs. The controller displays, alarms and records minimum and maximum temperatures for both temperature probes. Like a mobile phone touch screen it locks after 30 seconds to ensure that buttons can't be activated accidentally.

For extra security, there is a digital lock version RLDF1019DIGLOCK which solves the problem of generic keys, but whatever the preferred model, for a small additional cost we can provide a manufacturers' calibration certificate from our in house UKAS temperature calibration laboratory No:8898.

We are confident that this pharmacy refrigerator will provide you with many years of fault free service. However, for extra peace of mind your RLDF1019 comes complete with a FREE UK 5 year parts and labour warranty.

Micro SD Card **SDCARDV18**

View and store the temperature data recorded by your IntelliCold® Pharmacy Refrigerator

Micro SD card slots neatly in to the controller to download data

View and store the output as a csv file on your computer

The IntelliCold® controller in your pharmacy refrigerator will automatically store readings from the two temperature probes plus any alarms. It will also store information about the fridge itself, such as whether the door was open and even if the fan or compressor are running and, if so, for how long. This data is collected and saved every minute, 24/7, 365 days of the year. To view this information as a csv on your computer, you must have an encoded Micro SD card from Labcold to transfer it from the fridge to your desktop.

As long as the refrigerator has power, this data will be recorded and stored, giving you all the information you need for regulatory inspections and meticulous and comprehensive records. In addition, should you experience an issue you can check, minute by minute, whether the temperature inside the refrigerator was affected.

Designed by Labcold for our IntelliCold® Pharmacy Range RLDF/GXX19, the micro SD card comes complete with an adapter, so is suitable for a computer which only has an SD card slot. There is also a case to keep the Micro SD and adapter together. To ensure upmost security, only micro SD cards from Labcold will work with your fridge and the first time the card is used, it will lock to that fridge to prevent data from being lost or recorded from other refrigerators.

Available with a once only half price offer when you register your warranty, why not make sure you know minute by minute what is going on in your pharmacy fridge?

Minute by minute, 24/7, 365 days a year data for your records

Collects data from both temperature probes

50% off if purchased when you register your warranty

Half Price
